Brand: Natural Playgrounds Company

Toxicity: child friendly wood preservative

Age Appropriateness: all ages

Signs are excellent tools to differentiate play areas, provide play area labels, encourage reading, and display important information.

Signs can also provide speaking points and guides of what can be learned in a specific area of the Natural Playground.

The basic Post Sign is a blank sign so children can create their own symbols and sayings, and is also untreated (no preservative) to allow for painting or customization on site.

If you want carved letters on your signs, we charge \$1 per letter/number.

We also offer the option to treat the signs with our safe, non-toxic, Thompson's Waterseal to preserve the natural colors and textures of the signs, while allowing the wood to breathe.

Please let us know your preferences.
