You can never have enough outside storage!

Everywhere we go, outside storage is an issue, so after experimenting with differently-sized Storage Sheds, we now offer two different ones for playgrounds.

Pictured here is our handsome, beautifully proportioned 2'x8'x5' high Storage Shed, trimmed with white, and complete with hardware. Also available is our smaller shed 2'4'x5' high.

These are great for use in outdoor classroom settings for storing sanitizing products, books, magnifying glasses, student assignments, loose parts for demonstrations, etc, etc.

The 2x4 stud construction inside allows you to add whatever wooden or metal shelves you want, or you can leave the inside open for storing tools, umbrellas, loose part sticks, saplings, or stacks of tree cookies.

Ships completely assembled and ready to use, nothing to put together. Just fasten to your foundation. (plans included)

We can make any size you want, even ones that can store trikes.

We can make these sheds into a playhouse by adding windows!
