Net Rail Climbs

MRCF-NRCKS

Shipping Weight: 250 lbs

Shipping Dimensions: 72"L X 65"W X 22"H

Brand: Natural Playgrounds Company

Toxicity: child friendly wood preservative

Age Appropriateness: all ages

The Net Rail Climbs are one of our most popular items; it can accommodate a large number of bodies on both sides, regardless of the age group. One side is an open net, while the other is a series of horizontal bars.

The net is designed to dynamically move, a feature that becomes even more challenging when a number of bodies are on the net at the same time.

Because this challenge element is for 3 different age groups, please make sure you choose the right one. The one for young kids is about 5' high at most, the one for older kids is 8' high, and the one for adults is 12' high!

All three are shown in the photos below.

Comes as a kit, and sits on the ground, so it's portable (but it is heavy). However, if you want to install this fabulous element in a permanent location, let us know!

Complete assembly and installation instructions are included.

For schools and public playgrounds, you do need a 6' fall zone all the way around this, but that fall zone can be shared with other fall zones (except for swing and slide fall zones).
